Von Christine Rimmer : A Doctor's Vow (Prescription: Marriage) before purchasing it in order to gage whether or not it would be worth my time, and all praised A Doctor's Vow (Prescription: Marriage):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. A Doctor's VowVon Ein KundeI enjoyed the Prescription Marriage books written a few years ago. Nnurses were the main characters but this time it's female doctors. Ms Rimmer's heroine is Ronni Powers,MD. A pediatrician who plans on marriage later and she thinks a househusband would be wonderful. Of course that's not who she falls in love with. Ryan Malone is a hospital administrator who works 24/7 a day and is widowed with 3 small children and a mother-in-law who wants her daughter's memory to be enough for Ryan and the children. Lily, the mother-in-law is written so well you can understand her feelings and sympathize with her. Ronni Ryan do understand but they do love each other

and want to marry. Drew, age 9, is also a very well written character, too. I enjoyed the book!

Kurzbeschreibung Pediatrician Veronica Powers could handle crying babies and sticky-fingered toddlers without batting an eye, but in her personal life, order reigned supreme. So the beautiful and hardworking doctor was unnerved by her fascination with strong, sexy hospital administrator Ryan Malone--especially since his chaotic life involved three rambunctious kids and an inquisitive mother-in-law. Nevertheless, the single father was wreaking havoc with Ronni's well-ordered notions. And whether she wanted it or not, this man and his family were chipping away at Ronni's guarded heart and changing her mind about marriage!

Autorenkommentar A whole new series of Prescription: Marriage stories.... Pediatrician Ronni Powers has her life all planned out. And it doesn't include a man--not right now, anyway. And even with the timing is right for love, it certainly won't be with a man like Ryan Malone. The handsome widower has a high-powered job as time-consuming as Ronni's own--not to mention three darling, demanding children and an inquisitive mother-in-law. But love has an annoying tendency to set its own timetable. And though Ronni should know better, she just can't help following her heart. Watch for more Prescription: Marriage stories. Next month, THEIR LITTLE PRINCESS by Susan Mallery, followed by DR. MOM AND THE MILLIONAIRE by Christine Flynn.
