geeksVon emmamich mit dem lsen von matheaufgaben entspannen zu wollen, kme mir nie in den sinn. aber das buch

hat mich gefesselt. die innere entwicklung ist sehr glaubhaft beschrieben. taschentcher bereithalten.es lohnt sich!1 von 1 Kunden fanden die folgende Rezension hilfreich. When the love for other people beats the love for math... Von SvenjaPohlI hadn't read much contemporary novels before this one and it was also my first contemporary in english. I picked it up because the ebook is so cheap and the synopsis sounded so so good.And I don't regret it!I loved every single minute I could spent with this book.It's about a girl, Scarlett, who loves math and is very introverted and hides her emotions from other people. But she is also a person who cares about her friends and she is so sensible. I just loved this character.The other part is Tucker Price. He is a typical Playboy: Every night another girl in bed, the Star of the school's soccer team. But a loser in math. And Scarlett is his new tutor...This book was amazing. First I thought it's just a normal story about a high school love and stuff like that, but it wasn't. There is so much behind this story, the emotions, the drama, the characters. It was very authentic and credible. It reminds me of the books from Simone Elkeles and Sarah Dessen. A good story for young adults about love and loss and how important it is to be honest.And a big plus was that the female main character wasn't a damsel in distress she is strong and didn't tolerate much of the things Tucker did.What I also liked was the writing. The author used a good tone and built a steady tension and the conclusion was heartbreaking!!!I read it in one day and I'm a slow reader so you can see how good it was :)I can highly, highly recommend After Math. It will make you fall in love, cry with Scarlett and smile with her and Tucker.0 von 0 Kunden fanden die folgende Rezension hilfreich. Guter Anfang, jedoch schwchelt das Buch mit der Zeit-3.5 Sterne!Von CustomerAls ich die ersten Seiten dieses Buches las, war ich sofort gefangen. Ich dachte, ich htte endlich mal wieder eine ergreifende New Adult-Romanze erwischt, die nicht nur um Sex gehen wrde. Dieser Wunsch wurde auch erfllt, jedoch muss ich sagen, dass ich das Buch mit der Zeit immer schwcher fand.Scarlett ist eine sehr sympathische Protagonistin und ihre Gefhle sind sehr gut nachvollziehbar. Ich fand es mal erfrischend, von einem Mdchen zu lesen, das sehr gerne aufs College geht und Mathe liebt. Ich konnte ihre Mathe-Liebe zwar nicht nachvollziehen, da ich in diesem Fach immer der totale Loser war, aber es hat mir sehr gut gefallen, dass die Autorin hier eine etwas andere Protagonistin geschaffen hat. Sie ist auch keineswegs nervig und der Leser mchte einfach nur, dass fr sie alles gut ausgeht.Die Beziehung zu Tucker war auch sehr romantisch dargestellt, jedoch muss ich sagen, dass mich mit der Zeit die stndigen Wiederholungen sehr genervt haben. Zudem hat sich das Buch dann doch etwas sehr klischeehaft entwickelt, was mich einfach sehr genervt hat. Muss es immer so viel Drama sein?Insgesamt ist das Buch gut fr zwischendurch geeignet, jedoch sollte man nicht davon ausgehen, dass dieses Buch einen tief berhren wird. Bei mir war das leider nicht der Fall. Trotzdem ist "After Math" nicht schlecht, jedoch habe ich nach dem exzellenten Anfang mehr erwartet.

KurzbeschreibungUSA TODAY BestsellerScarlett Goodwins world is divided into Before and After.Before she agreed to tutor Tucker Price, college junior Scarlett was introvert, struggling with her social anxiety disorder and determined to not end up living in a trailer park like her mother and her younger sister. A mathematics major, she goes to her classes, to her job in the tutoring lab, and then hides in the apartment she shares with her friend, Caroline. After junior Tucker Price, Southern Universitys star soccer player enters the equation, her carefully plotted life is thrown off its axis. Tuckers failing his required College Algebra class. With his eligibility is at risk, the university chancellor dangles an expensive piece of computer software for the math department if Scarlett agrees to privately tutor him. Tuckers bad boy, womanizer reputation makes Scarlett wary of any contact, let alone spending several hours a week in close proximity. But from her first encounter, she realizes Tucker isnt the person everyone else sees. He carries a mountain of secrets which she suspects hold the reason to his self-destructive behavior. But the deeper she delves into the cause of his pain, the deeper she gets sucked into his chaos.
