Von G Benson : All the Little Moments (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised All the Little Moments (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. Loved itVon SkippyI finished this book within a couple of days. The story was intense and despite I'm not the biggest fan of kids I enjoyed the two kids in this story.The main characteris Anna (doctor) who runs Lane (nurse) over with her

trolley while trying to decide which cereals are the best for the kids of her brother, who died with his wife in a car accident and made Anna the guardian. A few days after this incident they find out they're both working at the same hospital and the attraction is mutual and very obvious to their friend Kym (nurse). After Anna holding back, as she wants to be there for the kids, they finally get together and everything could be fine if there weren't the mean mother of her sister-in-law, who does everything to take the kids away from Anna.

It has a nurse + doctor romance in it (ugh) and small children (gasp), neither of which is what I'm usually looking for when choosing a book. However, I've had the pleasure of meeting the author and she is such a lovely, charming and sweet bundle of happy bubbles and so lovably excited about having published her first novel, and so I thought, what the heck, I'll give it a try. Well, what can I say. I haven't regretted it. It's a lovely, heartwarming book. Yes, there's a doctor and a nurse falling in love with each other, yes, there's small children and yes, family issues are pretty much in the centre of this story. There's heartache and loss, there's sappy romance and cuddling, there's angst and hurt - but while this may sound like your average tearjerker and even worse, like perfect ammo for the romance-bashing critics out there, let me tell you it's not a tearjerker and it's anything but stereotype. Although it's pretty much en vogue to label everything AWESOME and BREATHTAKING and GUT WRENCHING and yada yada, I would label this book lovely and heartwarming. It almost qualifies as a comfort read. It's refreshingly drama-free without being bland. Take Anna's and Hayley's break-up, for instance (don't worry, this is no spoiler because a) it's mentioned in the blurb and b) it happens pretty much at the beginning of the book). There's no door slamming and bitching, and Hayley doesn't turn from formerly loving partner to murderous uberbitch. Sometimes, something so drastic and heartbreaking happens in one's life that there is just not enough energy left to create a massive scene. Then a decision must be made, and quickly, and this is what happens. There's this new situation and it turns everything upside down, and Hayley knows she won't be able to handle it without causing more damage. So she delivers the blow and as the story progresses, it turns out it was the right thing to do. Instead of becoming somebody ice cold and in the distance, however, she keeps Anna in a special place in her heart and she does what she can to help when help is needed. I liked that a lot. There's just too many books out there where the ex suddenly turns into this hateful bitch making the hero's or heroine's life hell. It's so nice to see a change from this trope. (In fact, I'd be delighted to find out how Hayley's been doing since the break-up. Hoping for a novel probably is too much, but maybe a novella? And while we're at it, Kym deserves her own story, too. Thank you.)

While Benson does touch tricky subjects how do you handle your grief, or that of a friend, or that of a child? How do you cope with people frowning upon your lifestyle (not giving that away because, SPOILERS)?, she does so with a very light hand. I didn't bite my nails, I didn't stay up late to read the next chapter, and the next, and the next but I did look forward to it because I wanted to know how the story continued, and the tedious train rides to and from work passed away quickly and pleasantly. Light entertainment sounds horrible, I know, but it's actually an art form. It takes a truly talented writer to deliver a light novel with adult/grown-up contents that doesn't fall into the soap opera trap. I don't want to bite my nails, and I don't want to stay up too late all the time, but I do want to read good stories. And sometimes, a book that calms me down after a stressful day at work is even more welcome than one that gets my blood pressure up. I'm giving four stars because I was pleasantly surprised and much enjoyed reading about Anna, Ella Bella and Tobes. Well done, Ms Benson!

Overwhelming Von Valerie Paul At the beginning I thought I may not like the book, because the writing was jumping from one situation to another, and didn't really focus on details. But as soon as the story moved on to the main part it got intense and I actually felt for the characters. All dialogues are so real, and the feelings developed to the kids and as well for the adults were strong. All in all I was fully taken by the story and I loved the writing.

Kurzbeschreibung A successful anaesthetist, Anna is focused on herself, her career, and her girlfriend. Everything changes abruptly when her brother's and sister-in-law's deaths devastate her and her family. Left responsible for her young niece and nephew, Anna finds herself dumped and alone in Melbourne, a city she doesn't even like. She tries to navigate the shock of looking after two children battling with their grief while managing her own. Filled with self-doubt, Anna feels as if she's making a mess of the entire thing, especially when she collides with a long-legged stranger. Anna barely has time to brush her teeth in the morning, let alone to date a woman least of all one who has no idea about the two kids under her care. Just when Anna finally starts to feel as if she's getting some control of the situation, the biggest fight begins and Anna really has to step up once and for all.
