Stuart breathes magic!Von Deborah MacgillivrayAnne Stuart turns on the pixie dust again and dazzles our minds! There is, undoubtedly, no writer who has quite her special magic. I buy her books on her name alone, because I know simply she will provide me with a very special story - every time. I recall with Ritual Sins came out, I thought opps, the

storyline won't work for me. Stuart likely smiled, knowing that is the reaction she would get from her loyal fans. She also knew she'd take them down those dark, claustrophobic corridors, rife with emotions, that she would mesmerise us against our will. Ritual Sins proved Stuart could take a subject off-putting and dancing in the fire - and demand of her readers that they do the same. She is not "safe" writer. She does not take the easy way or go with the flow of politically correct. She designs, crafts and uses her magic wand to weave tales that are brilliant. She is without doubt the resident genius of Romance! So when Angel Wings came in, I thought, opps....the story is set in 1937 and about flying. Not my cup of tea. And again Stuart likely smiled, because she has gone bifity-bofity and once again pulled her hat-trick. Angel Wings is pure Stuart witchcraft and grabs the reader and does not let them go. Be prepared for another Stuart bad boy that good girls cannot resist! Angela Hogan was engaged to a high-flying ace who died trying to set an aviation record in the style of Lucky Lindy. Now running her air freight cargo business, she is beset with all sorts of problems. A restless, younger sister who wants to be a movie star, an underhanded competitor who wants to run her out of business, three aeroplanes needing repairs, and she just fired her pilot and mechanic. So, when Jack Clancy swaggers into her office, he is both an answer to a prayer and her worst nightmare. Jack is international playboy, a love 'em and leave 'em guy who is splashes across the tabloids as often as he makes the news for his daring flying exploits. A man too bloody handsome for Angela's peace of mind. He and Angela instantly rub each other the wrong way, getting under each other's skins. Angela needs Jack to see her business does not go under, but the price of keeping him around is going to cost high! These characters leap off the pages, spellbinder you in the best Stuart magic. I just could not put it down. Stuart has a fine feel for the period, an eye to historical details. How things WERE, not as people think they were. She portrays the male - female roles of the late 30's so well, not updating them the please the audience of today - but giving the readers a time machine ride into the past. It's just does not get any better than this. All I can say to Stuart is - don't ever stop!

Kurzbeschreibung Angela Hogan is a pilot. A good pilot, and one of the few female flying aces of the 1930s. Struggling to make a living while the Great Depression rages, Angela has no problem running a small business and competing with men who believe a womans place is in the home. She has a plan to bring in business. All she needs to do is break the record for flying from Newfoundland to Havana, and thats exactly what she plans to do. But when a competing air freight company threatens her livelihood, Angela has no choice but to hire a hotshot pilot with a reputation for setting records in the air and being a ladys man on the ground. Jack Clancy doesnt like bossy women. He prefers blondes with more beauty than brains, but he takes the job at Hogan Air Freight in order to save enough money to ship his own plane back to the States and get it the repairs it needs. He tries to tell himself thats the only reason, even as he is drawn inexplicably to Angela Hogan. The female pilot and her determined attitude bother Jack, but that doesnt stop him from fantasizing about what lies beneath that prim and proper exterior, even as she squares off to fight him at every turn. Soon Jack and Angelas shared passion for flying turns into a passion for one another. But Jack has no intention of becoming tied to a woman like Angela and having his wings clipped. And Angela has no intention of leaving the flying to the men so she can become a homemaker. She intends to finish what she started and break the record for the flight she had planned, even when it turns out that the record shes breaking belongs to Jack Clancy.
