A new ARC in the Knights of the Black Swan seriesVon Birgit WahlFirst book of the Hybrids ARC aka Exiled ARC. This is about hybrids means humans tampered genecally by scientists to become more means they added shifter DNA to the human DNA.As it is with humans and their believes 'what is better, faster and more intelligent as humans' is to be

destroyed so the Angel Kellareal rescues one type of hybrids from genocide on their home planet aka dimension and brings them on another planet aka dimension to fight for humans against other hybrids (created by their forfathers). They do it for 25 years then Elora Rose 'Rosie' Storm needs a time out after Glendenon Catch decided to work with Z team which she didn't wanted. Since she was born 14 months ago but her body matured to an adult in this short time her essence wasn't matured fully even with all the memories of her bloodlines she inhaled since she is 2 part demon, 1 part witch and 1 part human. Kellareal thought the place where the Exiled (this is the name the hybrids he rescued called themselves) are living is a good place for Rosie to learn to learn that all acts have consequences. Oh she learns it in this book. She meets Carnal and his family, works in the Commons (a place which is part cafeteria and part bar) and fell in love with Carnal. After she helps the Exiled to discover that the humans they guard from the bad hybrid race plan to erase both hybrid breeds there is much turmoil. So this book contains lots of surprises and twists and I loved it. I gave it 5 stars, it is a keeper and I will re-read it before the next Hybrid story will be released
