KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. unrealisticVon mirimonthethe whole story is really unrealistic and flat. I have nothing against two highschool sweethearts finding each other again. But one simply gives her life up and othing really bad happens (though she is a big lawyer). Ant the other one is fighting against cooperations that kill bees with insectizdes. But as soon as her love interest arrives this is forgotten. At least it is never mentioned again.0 von 0 Kunden fanden die folgende Rezension hilfreich. Beautiful storyVon W. C. M. SantegoetsA beautiful story of love and friendship.Well written I liked it very much and will read more from this writer.Thank you for sharing KA Moll

Kurzbeschreibung Courtney Holloman is a woman at the top of her game. She's successful, wealthy, and a highly sought after Washington lobbyist. At first glance, one might think that she has it all. She doesn't. Not even close. She lives life in the fast lane without a moment to spare. She leaves no time to smell the roses. She's consumed by work in a world of politics and power brokers. She has money, her job, booze, and nothing else. In quiet moments, against her will, her mind drifts back to her days in high school and to all that she gave up. Jack Camdon is a complex woman, and yet not at all. She earns her living as an entomologist, has a passion for bees, and the environment. She's an Ojibwe healer and someone who has a good grasp on the things that are most important. Jack is also a woman who has never moved beyond the sudden and unexplained departure of her high school sweetheart, her lover, and her soul mate. When circumstances bring Courtney back to town two decades later, their paths will cross. Can high school sweethearts, apart for the entirety of their adult life, rekindle their flame that still burns hot? Or, will hurt feelings, shattered trust, and conflicting priorities destroy their second chance at love?
