A little disappointing but niceVon 5171Miles (Sabrina)Insta-love is always a tricky thing with me: there are books with insta-love I liked and then there are books with insta-love I didn't like very much. Unfortunately, Confess was the latter. I can't put it into words but there was something that put me off, something that made it unbelievable, but that's just my

personal opinion. The overall story was sad and tragic and I felt sorry for Auburn. She was young and naive and put her faith in the wrong people. I wished she had someone who guided her back then. I was also upset with her for not standing up for herself more. I know it's hard to say something like that when I haven't been in her shoes but there is only so much a person can take from someone else. I would've reached my breaking point way before she did. That's why I'm glad she met Owen. He showed her what it meant to be strong and stand up for herself. Maybe that was all she needed: a little push of "fate". ;) Although Owen's life is everything but easy (he still struggles with the consequences of something that happened 5 years ago), he sacrificed everything to help his family and Auburn. She definitely found a great guy. The ending of the story, however, left me unsatisfied. It seemed Colleen had to rush toward a happy ending. Also, there was this one particular thing Owen did or rather didn't do that I didn't like. To me, Owen kept something major from her and I didn't like how this was the end. Confess was all about the art. For this, Colleen collaborated with artist Danny O'Connor. His paintings were printed as small black-and-white pictures along the storyline as well as colored medium high-quality page prints in the middle of the book. So if you want to see the beautiful art of the book, get the paperback. :) 0 von 0 Kunden fanden die folgende Rezension hilfreich. Gutes Buch! Von Carina Stille Das Buch hat mir sehr gut gefallen, besonders dass es aus Sicht der beiden Hauptfiguren geschrieben ist. Einfach nett zu lesen, nicht zu lange Kapitel, sodass man schnell wieder reinfindet nach einer Lesepause. Interessante Geschichte, die so geschrieben ist, dass man immer weiterlesen möchte. Ich kann es empfehlen! 2 von 4 Kunden fanden die folgende Rezension hilfreich. Oh, Colleen... Von ink.eaters book blog I am absolutely torn when it comes to reviewing this book. As always, I absolutely loved Colleen Hoover's writing - no question there. I also absolutely loved the idea of the story, and I am in love with the art used throughout the novel - I wish I had millions of dollars and could decorate my whole apartment in paintings by the artist. The book also contains an amazing love story that will make you smile, frown, cry and laugh. It'll make you angry, and feel warm fuzzy things. Overall, I really liked the book and the thought behind the love story, and I loved to see it develop... but right from the start, I knew what'd happen. After only a few pages I turned around to look at my fiancé and went "okay, here's what I think'll happen..." - and it did. There, of course, were a few side-extras here and there that I couldn't predict, but the overall outline of the plot was just as I had suspected... and a way too predictable novel unfortunately is one I cannot love quite as much as others - which, in this case, makes me pretty sad, because as mentioned before, I loved the love story, loved the characters, loved the writing and the art... just not its predictability. Despite the predictability, Hoover's writing turned "Confess" into yet another pageturner that I didn't want to put down - it's a rather realistic story that will touch your heart. The emphasis, however, is on the 'rather'... something that was 'rather' unrealistic in my eyes, and slightly 'urgh', was the insta-love between Owen and Auburn. Yes, they were in the right place at the right time for one another, and they were/are good for one another, great and amazing, even, but something about their story made it hard for me to connect to the characters - a first for me, when it comes to Hoover's creations... yet, at the same time, I couldn't not *feel* their story. Another thing I absolutely loved was the "Confessions", how they were used and embedded in the story. I just didn't love-love-loooooove! "Confess" as a whole, which makes me somewhat sad, because believe me, I've tried - I want to love-love-loooooove! it... I just can't. But that's okay - my CoHo heart's still beating strong and I cannot wait for "November 9"!
