Von Amy Lane, Aleksandr Voinov : Country Mouse (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised Country Mouse (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen4 von 4 Kunden fanden die folgende Rezension hilfreich. Too short but a very nice readVon SunneFinished "Country Mouse" - that was unfortunately a short one...about 1400 locations on kindle....but I enjoyed it. I would say it was more sex than I'm used by Amy Lane and less story line...(but on the other hand "Chase in Shadows" wasn't so typical for her, too - despite this one has a very good story line).

Maybe it was the influence of the co-author. It was very easy to read and had some interesting and nice shifts in the character...for example:Owen might be the "country mouse" but he has a very solid self confidence and insight, he know what he loves and doesn't hesitate to get it..even if it's spanking. Malcolm might be the Dom...but in reality he is the needy one. The difference between "what people show others of themselves" and "how people really are" was shown in a very entertaining and for me very convincing way.I'm torn between 4 and 5 stars because I really enjoyed it but it was just too short.....2 von 2 Kunden fanden die folgende Rezension hilfreich. Unlikely Team?Von amygdalaYep. I really, really liked it. It's sweet, adorable and with some kink. Call me surprised--because (like many others, so it seems) I did not believe these two authors teaming up would work. (That's why I left it that long unread..)Clearly, I was wrong. Because it really did work.And it made me hungry for more. Luckily, there are plenty of untouched books by Voinov on my shelves. Yay.

KurzbeschreibungOwen may be a bit of a country mouse, but hes loving his vacation in London. After a long day playing tourist, hes on the hunt for some cheap beer and a good burger. Instead he finds a man hunting him, an arrogant prick with only one thing on the brain: the kind of meat that doesnt come on a bun.Eighty-hour weeks at a trading desk dont leave Malcolm Kavanagh much time for meaningful relationships. Besides, in his world, everythings a competition even sex. When his newest one-night-sub fails to show, Malcolm sets his sights on the pretty young Yank on the bar stool beside him.Owens all for an adventure with a native, but hes not the pushover Malcolm thinks he is, and Malcolms not as shallow as he tries to be. They both soon learn that nothing's too intimate to share with a stranger, and the strangest things happen when two people share the most important pieces of their hearts.* * * * *
Don't miss the continuation of Owen and Mal's story in City Mouse, available as a standalone novella and in the Country Mouse: The Complete Collection bundle.KurzbeschreibungOwen may be a bit of a country mouse, but hes loving his vacation in London.
