**Von Rachel Robinson : Crazy Good (English Edition)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Crazy Good (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen2 von 2 Kunden fanden die folgende Rezension hilfreich. Loved the roller coaster!Von MagritteI read approx. a book a day and have to admit that I mostly don't have the time to write a review.When i wanted to work on the list of books I read but didn't review i had a hard time when I got to this book because frankly I didn't remember it from the title, nor the book description.This was not good, but there was a

question popping up in my mind, could it be this one book? The one I enjoyed so much but forgot the name? So I started reading the first pages again and it hit me.... It was the one book which took me on a roller coaster of feelings. One of the rare books which made me sad and smile and happy and desperate. This is what crazy good makes to you! It is the love story between Navy SEAL Maverick and Windsor Forbes, but it is also the story of the people around them. The characters are great, fun and illogical and logical in the same time. The writing is great. Mrs Robinson builds up tension and releases it in a fabulous way! I want more about Morganne and am happy to read on her website that there will be more soon, but not soon enough! Enjoy the read as much as I did. A lot of drama Von reader The story line had potential, but the execution and pacing fell short, the middle section of this book dragged so much that I contemplated to stop reading, the conclusion felt unfinished and underdeveloped, and the epilogue shows their HEA, their lives having turned out to resolve to perfection with children and loving grandparents on both sides. The prologue absolutely hooked me with a hidden wife and how Maverick's heartbeat shot up when Windsor left the hospital room. That puzzle kept me reading but to my great disappointment the prologue had nothing to do with the rest of the book, it was kind of swept under the rug, and the solution was incongruous. In one short paragraph the reader learns that Mav married Monica, tried to divorce her two weeks later and we are to believe that the kick ass wildly successful divorce attorney Morganna served her the divorce papers 17 times unsuccessfully in the last five years. I also cannot believe that Monica would be his emergency contact. Before deployment the seals usually update their files and write the good buy letter for just-in-case; Morganna later gives Windsor Mav's letter for her, so you can assume he had her enlisted as his contact. Too much time was wasted on inner monologues on both sides. She was still hung up on the cancelled wedding two years ago despite having paid a fortune to her psychiatrist, he mused about his parents rejection. Compared to that his addiction issues were skirted over although this was an important part of the story that was unfortunately side barred. There were big family conflicts for both MCs and they have vanished into thin air in the epilogue, how??? why??? His grovelling consisted of random acts, I got neither the couch nor the weekend in Las Vegas. Windsor had missed the trip to the Pacific and swimming with dolphins would have been a logic choice. As there were a lot of grammar and spelling problems (evident even for me as a German reader) I suggest hiring a good editor for proof reading in matters of logic, consistency of story line, grammar, and orthography. 0 von 0 Kunden fanden die folgende Rezension hilfreich. Mav: Crazy Good! Von Tea PI liked this story a lot. Rachel Robinson pulled me into it right away. That first chapter alone had me holding my breath. I needed to know. Needed! Maverick was crazy and good. A reformed bad boy. Just the way I like my book boyfriends. His sweet seduction was romantic and funny. Of course, Maverick was also hot. And that special tattoo he got for Windsor was fitting like a glove for a SEAL in love. Windsor was a good character, although she didn't stand a chance against Maverick in my opinion. But I liked her natural and generic way. And I loved their "One-Word-Game". The story was told in Windsor's and Maverick's POV, which I liked a lot. And on top of that "Crazy Good" was very emotional. There was devastation, love, grief and happiness. I was smiling, tearing up, fanning myself, holding my breath, laughing out loud and ugly crying. My heart was breaking a lot of times while reading, and for totally different reasons each time. It had it all for me. The book had a few typos, but I didn't mind them at all, because it was still very well written and also edited. If you can get over those little mistakes, give this story a shot! It's worth it!

Kurzbeschreibung Before there were bikers, or fighters, or even good old-fashioned jerks, there were Navy SEALs. They put the bad in badass because, well, it's their job. Navy SEAL Maverick Hart has everything. Women want him. Grown men idolize him. Little boys want to grow up and be like him. The job, the glory, it's all his. Not because it's handed to him because he works hard for it. The second his sights lock on something, he owns it or destroys it. Unfortunately he does both at the same time. Windsor Forbes only takes calculated risks in her profession and in her personal life. After being left at the altar by the only person she's ever loved, the very last thing she's looking for is a relationship especially the insane brand an arrogant Navy SEAL is offering. Hesitant, yet trusting to a fault, she gives in. She knew she shouldn't take the chance, especially a second time, but love is irrational and their love is perfect, infallible. Or so she thought. The downfall to having everything is you have that much more to lose. A man like Maverick can't have it all without something slipping out of grasp. Crazy people perish for love. Good people live for it. Love doesn't die. No matter how many bullets you put in it. \*Due to sexual content and graphic language this book is intended for readers 18+\*

ber den Autor und weitere Mitwirkende Rachel grew up in a small, quiet town full of loud talkers. Her words were always only loud on paper. She has been writing stories and creating characters for as long as she can remember. After living on the west coast for many years she recently moved to Virginia Beach, VA. She resides there with her badass husband, one child, one naked feline, and an African jungle cat.
