I only read the first book and found it medium satisfactory. To determine whether it was worth to continue reading, I read the endings of book 2 3. They end

exactly the same way as book 1 for one reason or another. Then I found there are not 3, but 5 books. To me that sounds like I'd have to force myself to continue reading for a loooooong time, especially if there are no highlight in the end. That's why I stopped. Other people might not mind that though, and since I didn't read the complete set, I will still give it 3 stars.0 von 0 Kunden fanden die folgende Rezension hilfreich. Fun!!!Von Aidalo75I really enjoyed it. It is a well written page- turner. I honestly recommend it and look forward to reading more!!!
