KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. Fast paced, action filled and lots of funVon VessAnother really good instalment in the Sensor Series. Although somehow the story does not really evolve, the book was very entertaining. Kerbasis bity comments keep the book very amuzing. Melena is still a bad ass and has a couple of exciting fights during the book.Overall the book is a page turner with lots

of action and a great read

Kurzbeschreibung Between her service in the U.S. Army and her new life living with supernaturals in Alaska, Melena Sanders has had her loyalty and duty tested in every possible way. Or so she thought. Tensions among supernatural factions in Fairbanks are growing after the city's recent attacks and she must pick a side. Her nephilim lover, Lucas, needs her help to search for his missing brother whose disappearance may not be all it seems. And agents from the Department of Homeland Security are lurking about investigating the suspicious earthquake that rocked the region four months ago. It's not the best time to be planning a trip out of town, but troubles in Fairbanks aren't her only problem. A greater supernatural plot is developing and only by attending an upcoming ball in New Orleans can she discover more. There's no way to avoid it. Her loyalty and duty to those she cares for are about to clash.
